ABOUT THE WORKSHOP

English has been acknowledged as the universal language. It has facilitated communication among nations. Be it any profession, students have to deal with this language. Proficiency in English can make students work and face life much easier. It doesn't matter which career path students select, English language will aid them everywhere. Spoken English is the most sought skill, which helps to communicate effectively in all walks of life.

During the corona pandemic period, virtual communication has taken the lead. It is now even more important to communicate in a way that everyone can understand. The objective of this workshop is to help the students enhance their knowledge and develop their skills. With fast changing technology, and expanding globalization, it seems students are living in an increasingly communication driven world. For both native speakers and ESOL speakers, communication in English involves four modes -Listening, speaking, reading and writing.

The workshop aims to foster Creative thinking. The participants will learn powerful tools to sharpen their communication skills. They will walk away with greater confidence and ability, having developed a skill set that they can use them in right away. The workshop is designed to enable students to understand the nature, scope of communication and its implications. The workshop will expose to the receptive and productive skills of English language to attain proficiency.
